1. Diagnosis and condition of each cylinder and its component
2. To tune and balance the engine
3. It is in conjunction with maintenance inspections

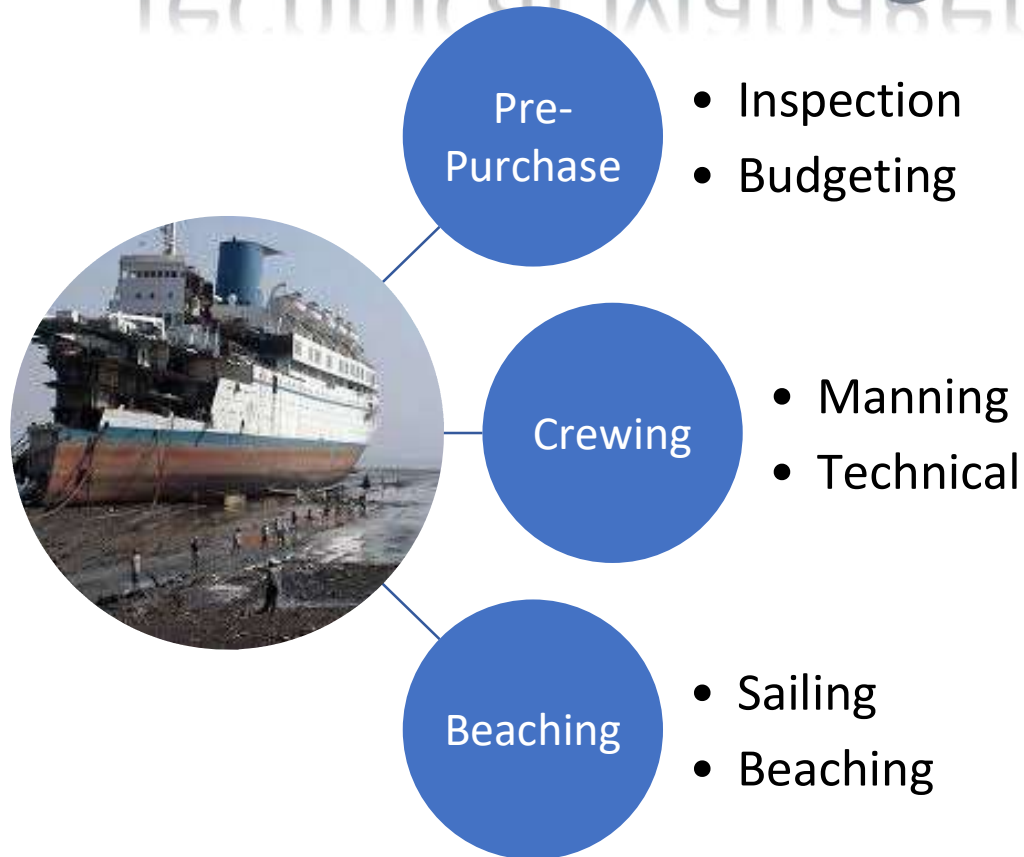

*Technical Management

Budgeting

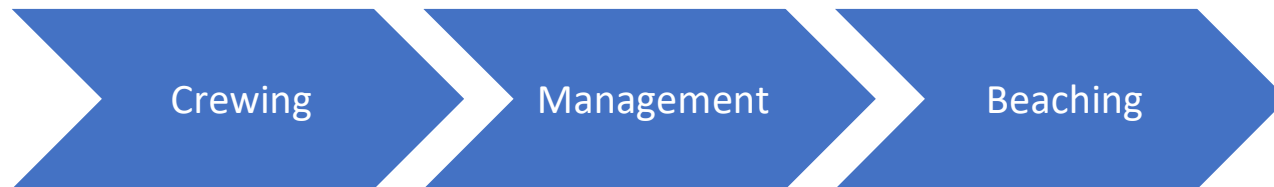

* Technical Management

Demo Vessels

*Demolition Vessels

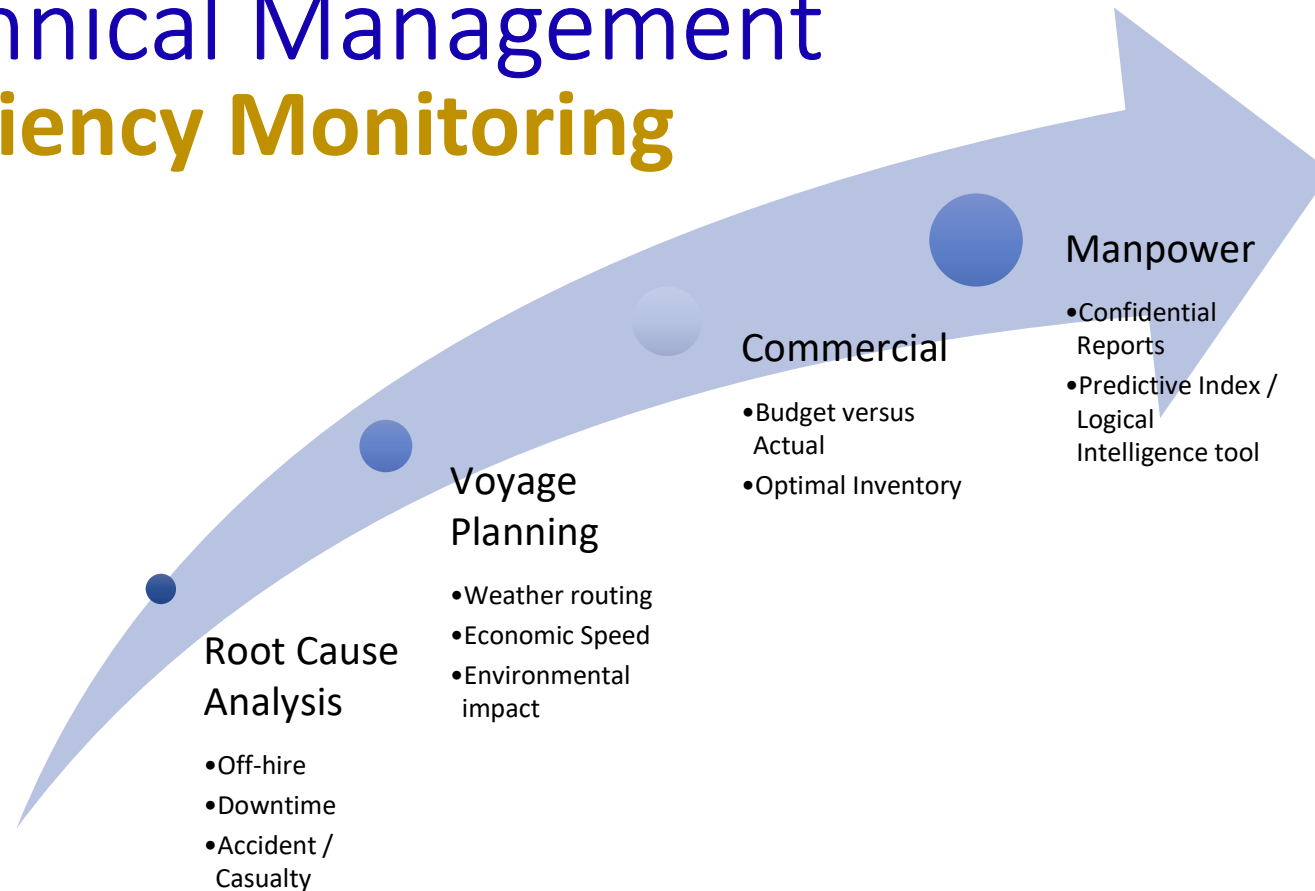

The Amos Advantage

Milestone of 40 Demolition Vessels
mainly Tankers but also includes
Container, Bulkers and Car Carriers

*Technical Management Efficiency Monitoring

A large, dark propeller with three blades is the central focus of the image. The propeller is set against a blue background. In the lower-left portion of the propeller, a person wearing a blue uniform and a white hard hat is visible, looking towards the propeller. The text "3. Ancillary Services" is overlaid in white, sans-serif font across the upper part of the propeller.

3. Ancillary Services

* Leaving no stone unturned
